Karjat, Maharashtra, India

Summary

I provide an aesthetic touch to lifestyle projects by using art, paintings & design into spaces right from concept to implementation. A unique combination of Realistic Art form with the world of imaginations! Realistic painting is a key art which dwells in the sea of effectual arts... And I am a true devotee of it! Long before language was developed, human kind expressed what he saw, felt through sketches and images and that is the most indigenous form of realistic art. And today, with the human evolution the art of painting has also progressed and experimented with human imaginations and feelings to become the most fulfilling medium of expressions. We know every art form has its own importance and comprehension. How if these can be unified and presented? This thought dazzled the artist in me so much that the paintings which were then created became effortless and enchanting. My small gesture to portray that 'Everything is not the same which is seen with naked eyes.'

After Diploma from Khopoli Chitrakala Mahavidyalaya , Mumbai University in Art and working as a freelance Fine artist, I evolved as a fine art, oil and Acrylic color painter. Commonly portraying figurative imagery, I painter realistic paintings have received some awards as they have been exhibited in regional and state juried, invitational, group. My subject matter, color and style are a very personal, intuitive part of who I am since I discovered art . I enjoy working with Landscape & figurative more and more I am examining landscape and often combine the two. I love watching people, especially children as I wish to see the world of wonder a new through their eyes. I am most interested in small everyday moments often missed or seemingly unimportant compared to the social and headl ine grabbing events of the world.

Achievements:-

International artist magazine finalist June - July 2012.
